LINDSEY EDWARDS

FULL STACK DEVELOPER

SUMMARY

Enthusiastic full stack developer who thrives in a fast-paced environment. Effective in utilizing problem solving skills to conquer any problems that arise. Team player that has worked on projects successfully, yet also self-motivated to work alone. Dedicated to advancing my skills through continued education and strives to stay active with the most current technologies and data trends.

CORE SKILLS

Java • Spring • Hibernate • JPA • JavaScript • MVC• TDD • Agile (Scrum) • Object Oriented Programming • AJAX • JSON • Restful APIs • Responsive Design / Mobile • SQL • Relational Databases • Source Control / Git • HTML5 • CSS3 • Flexbox • Grid

PROJECTS

Vi-Curiously:
Java | OOP | TDD | Scrum | Agile | Git| HTML 5 | CSS
Developed a full-stack, multi-page website using pair programming. Users are given the opportunity to either review life experiences or to live vicariously through other users by reading reviews.

High Street Hospital:
Java | OOP | TDD | Scrum | Agile | Git
Independent project that was developed using SOLID principles. The application was set in place to organize patients and hospital staff.

Virtual Pet:
Java | OOP | TDD | Scrum | Agile | Git
Team developed console application that allows users to interact with a virtual pet.

EDUCATION

WE CAN CODE IT
Software Developer Apprentice | Jan 2019 to present
Attended top rated coding boot camp that taught the fundamentals of full stack development. Operated in a professional environment that encouraged team collaboration as well as personal development. Utilized agile development to build applications from the ground up implementing planning, design, and development of professional applications. The course successfully provided a thorough education to obtain software development certification.

FRANKLIN UNIVERSITY
Undergrad | 2015

Coursework focused on Object-Oriented Programming, Algorithms and Data Structures, and Test Driven Development. Obtained skills necessary to think like a developer.
